V. COUNCIL MEMBERS REPORTS, COMMENTS, AND SUGGESTIONS

Council Member Katrina Foley referencing the proposed ordinance regarding "assembly use", to be discussed at the next scheduled Planning Commission meeting, requested that notices also be provided to the Chamber of Commerce, churches, South Coast Metro Alliance and any other businesses that might be impacted by the

proposed changes. Council Member Foley, felt the City should play a larger role in the sister - city programs and requested that a Sister City Exchange Reception and program be included in the budget for FY2006-2007, where staff would work with the Newport Mesa Unified School District to coordinate.

Mayor Allan Mansoor went on record to explain the sequence of events that took place at the January 3, 2006, City Council Meeting that led to the removal of a speaker from the City Council Chambers. He detailed that there was not an item on the agenda for that meeting relating to the Council's decision to explore entering into an Memorandum of Understanding (MOU) with ICE for limited training of gang unit officers detectives and jail personnel; that prior to the regularly scheduled City Council meeting two groups, with opposing view points, demonstrated in front of City Hall. He recounted that prior to the commencement of Public Comment, and repeatedly throughout, that he reminded the audience of the City's Municipal Code's prohibition on disorderly, loud, boisterous behavior by those attending the meeting. The Mayor reported that Mr. Jim Gilchrist, whom was speaking for a number of members of the audience, requested them to stand. The Mayor stated he asked the speaker to serve as the speaker for his group, as well as invited both sides to select a speaker representative who could say how many were in attendance in support of the speaker's comments. The Mayor then requested those standing to sit down, the audience members did so immediately, and the remainder of the speakers comments were appropriately directed to the Council. He related that when Mr. Benito Acosta was a speaker, he also requested those supporters in the audience to stand, directing his comments to the audience rather than to the City Council, as required by Costa Mesa Municipal Code Section 2-62. The Mayor indicated that while he advised him not to do so Mr. Acosta continued to repeatedly exhort the crowd to stand by saying "do it, do it". Due to the surrounding circumstances, including the highly charged emotions of many of those in the audience, and based upon his law enforcement experience, the Mayor expressed that he was concerned about the possibility of violence erupting both inside and outside the Council Chambers. He explained that he therefore called a recess to allow for law enforcement personnel an opportunity to control and defuse the situation. He advised that rather than complying with the officers directive to leave the podium, Mr. Acosta resisted their efforts to remove him from the podium and the Chambers. Once removed, the police officers and Mr. Acosta were surrounded by protestors, and to protect themselves and Mr. Acosta, the officers rapidly moved Mr. Acosta to the City Hall Lobby. The Mayor concluded emphasizing his commitment to the rights of the members of the public to address the

City Council on items that are City business, regardless of their view points, further commenting that it is however, critical for the safety of those present and the proper conduct of the City's business that all speakers and the audience comply with the rules of decorum and civility.

Brown, requesting relief from Pacific Medical Plaza Master Plan (PA-02-36) condition of approval regarding architectural treatment on the parking structure's easterly elevation (facing Orange Avenue) and requesting relief from mitigation measures related to the parking structure that require elimination of openings on the structure's easterly elevation and on a portion of its north and south elevations, construction of a 6-foot 6-inch high parapet wall on its top level, and a limitation on the parking structure light standards' height, located at 1640 Newport Boulevard in a PDC zone. Environmental determination: Final Environmental Impact Report No. 1051.**

The Affidavits of Publication and of Mailing are on file in the City Clerk's Office.

The Principal Planner summarized the agenda report and responded to questions from the City Council.

Peter Buffa, representing the Pacific Medical Plaza, made a presentation relative to the request for relief for the parking structure. He addressed the four areas of relief that were being requested: Condition of Approval, paragraph 14, relative to the easterly elevation of the parking structure facing Orange Avenue for enhancement by architectural treatments and landscaping, pointing out the applicant has voluntarily reduced the height of the structure, reducing the structure's profile; relief from the requirement of enclosing of the parking structure; relief from the requirement requiring lighting standards not extend above the parapet wall, pointing out that the new design of the parking structure creates an angled driveway, not a new "top level"; and the use of 14 foot light standards instead of the wall-mounted lights on the "top level". Mr. Buffa responded to questions from the City Council.

Ann Hogan Shereshevsky, Costa Mesa, inquired as to the number of parking spaces and the number of handicapped parking spaces that would be provided.

MOTION: Approve the applicant's mitigating request, with the finding that the proposed modifications would mitigate any potential

significant impacts; with Conditions of Approval establishing that: 1) The height of the light standards are limited to no more than 14 feet in height; 2) The light standards be painted a color that blends with the overall background; 3) Design of the light fixtures would be directed westward, away from Orange Avenue; 4) That light standard fixtures be wired in such a manner that allows the illumination of each to be reduced to 50 percent or less.

Moved by Council Member Gary Monahan, seconded by Council Member Katrina Foley.

Beth Refakes, Costa Mesa, expressed concern regarding changes in the mitigation measures, and supported the enclosure of the parking structure.

Mayor Pro Tem Bever also requested that the maker of the motion to include that the hedges will be maintained in landscaping. It was mutually agreed.

The Affidavit of Publication is on file in the City Clerk's Office.

The Principal Planner summarized the agenda report and responded to questions from the Council.

Council Member Monahan expressed a concern regarding the maximum amount of 500 square feet as he felt it was too small of an area for proposed use and indicated that he would be supportive of a maximum space of 1,000 square feet, keeping the 20 percent of gross floor area and would only apply to the larger buildings.

Council Member Dixon expressed her concern regarding a larger allowable space and felt that the 500 square foot maximum would allow for the incremental sales in the industrial without interfering the retail stores.

**MOTION: Give Ordinance No. 06-2 first reading, as amended, by amending Section 13-54(a) to read not to exceed twenty percent of the gross floor area or 1,000 square feet, "whichever is less" to be read by title only and waive further reading.
