Licensee further acknowledges and agrees that:

- The consideration paid by Licensee pursuant to Article 3 of the Agreement is consistent with the value of the rights comprising the License Privilege; the consideration is *not* consistent with the higher market value for a greater right, privilege or interest (such as a lease) in the Property or similarly situated parcels.
- Licensee is not a tenant or lessee of Licensor and holds no rights of tenancy or leasehold in relation to the Property.
- The Agreement and/or any prior and/or future acts or omissions of Licensor shall not create (or be construed as creating) a leasehold, tenancy or any other interest in the Property.
- Licensor may terminate the License and revoke the License Privilege at any time, subject, if applicable, to a notice period agreed upon by the parties, as more particularly set forth in the Agreement.
- In consideration of Licensor's grant of the License, Licensee specifically and expressly waives, releases and relinquishes any and all right(s) to assert any claim of right, privilege or interest in the Property other than the License.
- Licensee further acknowledges and agrees that without the representations and agreements set forth herein, Licensor would not enter into the Agreement.

- (g) Any case, proceeding or other action brought against Licensee seeking any of the relief mentioned in "clause f" of this Article which has not been stayed or dismissed within thirty (30) days after the commencement thereof.
- (h) Any claim by Licensee that it has a possessory interest and/or irrevocable license in the Property.
- (i) With respect to items not otherwise listed in Article 29.a-h, the failure by Licensee to observe and perform any other provision of this Agreement to be observed or performed by Licensee. Licensors shall provide written notice of such failure and Licensee shall be considered in material default where such failure continues for a total of ten (10) or more consecutive days from the date of the notice. Further, with respect to items not otherwise listed in Article 29.a-h, Licensee shall be considered in material default should Licensee fail to observe or perform any other provision of this Agreement for more than fifteen (15) days during the entire Term of the Agreement in the aggregate, after Licensors provides an initial written notice of such failure. After providing initial notice under this provision, Licensors will not be required to provide any subsequent notice of breach of this Agreement.

30. Remedies: Notwithstanding the notice requirement in Article 28, in the event of any material default by Licensee, then in addition to any other remedies available to Licensors at law or in equity, Licensors shall have the option to immediately terminate this Agreement and all rights of Licensee hereunder by giving written notice of such immediate termination to Licensee.

If Licensee fails or refuses to remove any of Licensee's personal property, building(s), fixture(s) or structure(s) from the Property prior to the earlier of the termination date or expiration date, said personal property, building(s), fixture(s) or structure(s) shall be deemed abandoned by the Licensee, and the Licensors shall have the right, but not the obligation, to remove, destroy, sell or otherwise dispose of them with no further notice to Licensee. 32. Limitation of Liability:

IN ORDER FOR LICENSEE TO OBTAIN THE BENEFIT OF THE FEE IDENTIFIED IN ARTICLE 3, WHICH INCLUDES A LESSER ALLOWANCE FOR RISK FUNDING FOR LICENSOR, LICENSEE AGREES TO LIMIT LICENSOR'S LIABILITY PURSUANT TO THIS AGREEMENT. AS SUCH, IF LICENSEE IS ENTITLED TO ANY RELIEF FOR LICENSOR'S NEGLIGENCE, INCLUDING GROSS NEGLIGENCE, FOR DAMAGE OR DESTRUCTION OF LICENSEE'S PERSONAL PROPERTY, BUILDING(S), STRUCTURE(S) OR FIXTURE(S) AFTER THE TERMINATION OR EXPIRATION OF THIS AGREEMENT, THE TOTAL LIABILITY OF LICENSOR SHALL NOT EXCEED THE TOTAL FEES ACTUALLY PAID BY LICENSEE TO LICENSOR DURING THE TERM OF THIS AGREEMENT.

FURTHER, IN NO EVENT SHALL LICENSOR BE LIABLE UNDER ANY CIRCUMSTANCES FOR INJURY OR DAMAGE TO LICENSEE'S BUSINESS, IF ANY, INCLUDING, BUT NOT LIMITED TO, LOSS OF PROFITS, LOSS OF RENTS OR OTHER EVENTS, LOSS OF BUSINESS OPPORTUNITY, LOSS OF GOODWILL OR LOSS OF USE, IN EACH CASE, HOWEVER OCCURRING, RELATED TO THIS AGREEMENT.

33. Non-Possessory Interest: Licensor retains full possession of the Property and Licensee will not acquire any possessory interest, whether temporary, permanent, or otherwise by reason of this Agreement, or by the exercise of the permission given herein. Licensee will make no claim to any such interest and Licensee will not claim that it has or ever had an irrevocable license in the Property.

34. Waiver: Licensor shall not be deemed to waive any provision of this Agreement orally or by conduct. Any waiver by Licensor of any provision of this Agreement must be in a writing signed by Licensor. No waiver by Licensor of any provision shall be deemed a waiver of any other provision or of any subsequent breach by Licensee of the same or any other provision. Licensor's consent to or approval of any act shall not be deemed to render unnecessary the obtaining of Licensor's consent to or approval of any subsequent act by Licensee. Licensor's acceptance of payment after providing notice of termination to Licensee shall not constitute a waiver of Licensor's termination of the Agreement.

35. Authority: This Agreement is executed subject to General Order No. 69-C of the Public Utilities Commission of the State of California dated and effective July 10, 1985, incorporated by this reference. As set forth in General Order 69-C, this License is made conditional upon the right of the Licensor either on order of the Public Utilities Commission or on Grantor's own motion to resume the use of that property (including, but not limited to the removal of any obstructions) whenever, in the interest of Licensor's service to its patrons or consumers, it shall appear necessary or desirable to do so. Licensee agrees to comply with all federal, state and local laws and regulations. This Agreement should not be construed as a subordination of Licensor's rights, title and interest in and to its fee ownership, nor should this Agreement be construed as a waiver of any of the provisions contained in said License or a waiver of any costs of relocation of affected Licensor facilities.

36. Electric and Magnetic Fields ("EMF"): There are numerous sources of power frequency electric and magnetic field ("EMF"), including household or building wiring, electrical appliances and electric power transmission and distribution facilities. There have been numerous scientific studies about the potential health effects of EMF. Interest in a potential link between long-term exposures to EMF and certain diseases is based on this scientific research and public concerns.

While some 40 years of research have not established EMF as a health hazard, some health authorities have identified magnetic field exposures as a possible human carcinogen. Many of the qu

diseases have been successfully resolved due to an aggressive international research program. However, potentially important public health questions remain about whether there is a link between EMF exposures in homes or work and some diseases including childhood leukemia and a variety of other adult diseases (e.g. adult cancers and miscarriages). While scientific research is continuing on a wide range of questions relating to exposures at both work and in our communities, a quick resolution of the remaining scientific uncertainties is not expected.

Since Licensee plans to license or otherwise enter Licensor property that is in close proximity to Licensor electric facilities, Licensor wants to share with Licensee and those who may enter the property under this agreement, the information available about EMF. Accordingly, Licensor has attached to this document a brochure that explains some basic facts about EMF and that describes Licensor policy on EMF. Licensor also encourages Licensee to obtain other information as needed to assist in understanding the EMF regarding the planned use of this property.

37. Induced Voltages: Licensee hereby acknowledges that any structures (including, but not limited to, buildings, fences, light poles) that exist or may be constructed on the Property licensed herein, (hereinafter, the "Structures") in close proximity to one or more high voltage (66 kilovolt or above) electric transmission lines and/or substation facilities may be susceptible to induced voltages, static voltages and/or related electric fault conditions (hereinafter collectively referred to as "Induced Voltages") unless appropriate grounding or other mitigation measures are incorporated into the Structures. If not properly mitigated, Induced Voltages can cause a variety of safety and/or nuisance conditions including, but not limited to, electric shocks or other injuries to individuals contacting the Structures or other utilities connected to the Structures (including, but not limited to, natural gas lines, water lines or cable television lines), or interference with or damage to sensitive electronic equipment in or around the Structures. Measures to mitigate Induced Voltages, if required, will vary from case to case because of factors such as electric facility configuration and voltage, other utilities involved, or sensitivity of electronic equipment. Licensee will be responsible to determine what Induced Voltages mitigation measures should be undertaken regarding the Structures and to implement such mitigation measures at its sole cost and expense.

Licensee agrees for itself and for its contractors, agents, licensees, invitees, and employees, to save harmless and indemnify Licensor, its parent, subsidiaries and affiliated entities and their respective officers and employees against all claims, loss, damage, actions, causes of action, expenses and/or liability arising from or growing out of loss or damage to property, including Licensor's own personal property, or injury to or death of persons, including employees of Licensor caused by or resulting from or connected to Induced Voltages on or related to the Structures.
